Hannibal Clinic Earns ACR Accreditation *For Immediate Release*

Hannibal, Missouri — Hannibal Clinic has been awarded a three-year term of accreditation in positron emission tomography (PET) as the result of a recent review by the American College of Radiology (ACR).

PET, also called PET imaging or a PET scan, is a type of nuclear medicine imaging. Nuclear medicine is a branch of medical imaging that uses small amounts of radioactive material, ingested by the patient, to diagnose or treat a variety of disease, including many types of cancers, heart disease and certain other abnormalities within the body.

The ACR gold seal of accreditation represents the highest level of image quality and patient safety. It is awarded only to facilities meeting ACR Practice Parameters and Technical Standards after a peer-review evaluation by board-certified physicians and medical physicists who are experts in the field. Image quality, personnel qualifications, adequacy of facility equipment, quality control procedures and quality assurance programs are assessed. The findings are reported to the ACR Committee on Accreditation, which subsequently provides the practice with a comprehensive report that can be used for continuous practice improvement.

The ACR, founded in 1924, is a professional medical society dedicated to serving patients and society by empowering radiology professionals to advance the practice, science and professions of radiological care. The College serves more than 37,000 diagnostic/interventional radiologists, radiation oncologists, nuclear medicine physicians, and medical physicists with programs focusing on the practice of medical imaging and radiation oncology and the delivery of comprehensive health care services.

###

Hannibal Clinic is a premier multi-specialty medical practice providing excellent healthcare to the residents of Northeast Missouri for over 60 years. Hannibal Clinic has locations in Hannibal, Palmyra, Monroe City, Center, and Bowling Green with 50 providers on staff in 18 different medical specialties.
